The construction of a bridge, 18 feet wide, across the Swift river at Cottonwood, is comprised in the above work.

The remuneration offered by the Government of British Columbia for this work is a Charter empowering the party, who shall construct the road as required, to levy on all goods and animals passing along any part of it, on other than Government service, certain tolls for a certain period of time

Persons desirous of tendering for this work must specify in their offers the rates of toll (per lb avoirdupois of merchandise, and per head of various kinds of animals) they propose to collect, the term for which they desire their Charter to extend, and the time, reckoned from the date of the acceptance of their tender, in which they will undertake to complete the road in the manner required by the Government; the consideration of these items collectively will determine the relative merits of such proposals as may be received.
